## **Hepatocor** Liver Protector

### COMPOSITION:

#### ingredientes per L:

Magnesium sulphate; L-Carnitine;  
Choline chloride; Betaine HCl;  
DL-Methionine; L-Lysine;  
Sorbitol; Artichoke extract;  
Excipient q.s.p. 1 L.

### SPECIES:

All species.

### ADMINISTRATION:

Orally, within drinking water.

### DOSAGE:

**Drinking water:** 1-2 mL per 1 L, 5 to 7 days.

### STORAGE:

Keep in a clean and dry place protected from direct light of the sun. Keep away from children.

### INDICATIONS:

To avoid fatty liver in production animals.  
To avoid liver poisoning due to prolonged treatment with antibiotics or against viral infections.  
To protect the animal against mycotoxins or toxins from food.

#### Production benefits:

Optimizes liver function.

It stimulates the metabolism of fatty acids (producing energy), bile secretions and digestive function.  
It acts as a liver protector, reduces pH at the colon level, reduces excreted ammonia and facilitates the elimination of toxins.

### PRESENTATION:

250 mL, 1 L, 5 L.
